Many thanks for all the positive comments on this trial, the effort put in was worth it. Shame we had to tweak a few sections after overnight rain made them impassable, but most were fine. Also a big thank you to all our 17 observers today, looking over the 20 sections, you turned out in numbers to support us and we are very grateful. Special thanks to Rob Dyson for all his help over the weekend from marking out, use of his land and finally observing along with Amelia and Connor on Sunday. Ray
